MEMORANDUM

Department of National Revenue, Canada

(Customs Division)

Ottawa, 14th May, 1940.

To Collectors of Customs and Excise,

Prohibited Publications

The Press Censors, Censorship Co-ordination Committee, have advised the Department that under Regulation 39A of the Defense of Canada Regulations, 1939, they have decided that the following publications shall not be circulated or distributed in Canada. In view of this decision, Collectors are advised that, from the date of this Notice, the following publications may not be allowed entry into Canada, viz:-

Dear Sir:

Kindly receive my fullest appreciation of the great honor which His Majesty's government in Canada has bestowed upon my humble publication by the recognition of the tremendous influence I have with the Canadian subjects of His Majesty, who might follow Col. Charles Lindbergh's suggestion and annex to the U.S.A.

What do you expect me to do? I shall do all in my power to deserve the high honor His Majesty's government has bestowed upon me. If two dozen copies of the Broom were powerful enough to give His Majesty's government the jitters so that it had to order its humble subjects to stop circulating and distributing it in Canada,

de Aryan Missed A Broadcast

"De ARYAN COMMENTS"

Thursday night 8:30 (KGB dial 1330)

ANNOUNCER — Mr. C. Leon de Aryan, publisher of the BROOM, has graciously surrendered his program period to-night in order that you may hear the commentary of Fulton Lewis, Jr., speaking from Washington, D. C. Usually heard at 9:30, the Lewis commentary has been re-scheduled to make way for a special hour-long broadcast from 9:30 to 10 to-night.

So did the Danish government graciously surrender its sovereignity to Adolph Hitler in order that you may watch him grab Norway. Usually neutrals are left alone by Hitler, but his program had to be re-scheduled when the Jewish—Communistic regime in Norway decided to make way for a British occupation of its litoral waters.

HARBOR DEPARTMENT BUILDS LONGERSHOREMEN'S HALL

"What are those rumors about the Harbor Department providing a $58.000 longeshoremen's hall for the C. I. O. from a W. P A. appropiation?" asked I of Joe Brennan our port director.

"Somebody got his wires crossed" replied Brennan. "We received quite a large W. P. A. grant for building improvements in the harbor district. We tore the old longeshoreman's hall down on Santa Fe wharf and took the lumber to rebuilt it as an one story structure next to the Allison warehouse for the use of the longeshoremen. They pay us $70 a month rent and it costs us less than $1,000 to rebuild the structure. We also built a new Firemen's station at the harbor."

CHAIN STORES HAVE WORSE HEADACHE THAN INDEPENDENTS

While the battle in Congress over the Patman Chain Store act is on, to penalize chain stores and eventually put them out of business by destructive taxation, the Independents who imagine that the chains have it easy, have another think coming. Independents can deal with labor unions and are not bound by what one store rebuild it as an one story structure next to the be seen from what happened to Western States Grocery Co., subsidiary of Safeway Stores in San Diego.

Dave Beck, west coast racketeer and regional vice-president of the AFL Warehousemen, Teamsters and Chauffeurs Union, compelled the Safeway Stores in Oakland to submit to his dictation, or else. He pushed a contract under the nose of the head of the corporation and promised to inflict dire consequences unless Safeway signed a closed shop contract for all its branches in California. Being boss of the union and since the goon squads, the terror gorillas, the stink bomb artists and the hoodlums stage a reign of terror upon Beck's orders and the authorities, being politicians, are either in cahoots with Beck or dare not disobey his orders, the Safeway Store's head in Oakland considered it the better part of wisdom to violate the Labor Code and sign on the doted line as ordered by Beck.

The result upon San Diego was that nobody could work for the then Western States Grocery Co. and the Safeway Stores in their warehouse or as truck drivers unless they were members in good standing of Local 542. The boys were told frankly by Lester D. Petzke, warehouse manager, that they had to join, keep up their

ARE WE TO BE TALKED INTO THIS HOLOCAUST?

By Sheldon Campbell

Are we that stupid?

Are we to forget all the training we have had in twenty years? We are the generation that has been taught not to believe propaganda.

And yet the colossus of public opinion is rapidly swinging around to where people (even supposedly intelligent college students and professors) believe that Hitler & Co. would be capable of an armed invasion of the western hemisphere. This opinion is beginning to advocate armed aid to the Allies.

We have yet to hear a feasible plan as to how an invasion could be accomplished.

No one can prophesy what's going to happen. Our supposed pals, the Allies (they'd stab us in the back at the drop of a battleship) may win this war yet. And if they don't — what! The totalitarian states will be so worn out by war, so upset by internal strife, that they couldn't think of an invasion for several years—if ever.

There has been a lot of talk about fifth column activities in the United States—principally by big business representative Martin Dies. To him anyone who disagrees is Red or Nazi. Unquestionably, there are those who favor other forms of government. That's their privilege.

The densest of us can't possibly believe the hog-wash that is floating around now about this being a war of democracy and Christianity against feudalism and paganism. It's a war of one economic system (the British) against another system (the German). One's as bad as the other.

As far as Christianity goes, God probably renounced us as Christians 25 years ago. He's probably sitting up in heaven laughing at the follies of the humman race—I don't blame Him.

If the Allies are supporting Christianity—let's all become pagans.

CITY MANAGER'S WIFE MAKES LAUGHING STOCK OF CIVIC CENTER WOMEN'S GROUP

Mrs. Fred Rhodes Gives Misinformation

The New Deal has Mrs. Eleanor Roosevelt and San Diego has Mrs. Virginia Rhodes. Both women at times are a pain in the neck because they have half baked notions and imagine that they know it all.

On May 7 the Women's Civic Center group passed a motion which was recorded as follows in their minutes:

"Moved and carried that a letter be sent to the City Council requesting that in preparing the Budget for the ensuing year, that they re-establish the fund for sufficient number of police women to properly care for the youth and the women who by their conduct require policing."

Mrs. Fred Rhodes, wife of the city manager, as corresponding secretary was charged with the writing of that letter. But dear Virginia set herself up above the will of the members of the association and decided otherwise. Instead of carrying out her duties she appeared on May 14, at the next meeting of the group and informed them she wouldn't do it. She said it would make them "be the laughing stock of the town because the budget was already made out and could not be altered to provide for extra women."

Thereupon Mrs. Carrie Crokat, court observer; federal and juvenile—made the motion to rescind the previous motion and the women members, not knowing any better, voted for it.

The facts of the matter are that the budget is not made up till the budget ordinance is passed and approved. The budget is in the process of formation at present and can be altered any day. While the council cannot add new items over the estimate of the city manager, the manager can change the items after the council talks things over with him and shows him where it would benefit public policy.

The truth of the matter is that dear, old, sweet Virginia, made a laughing stock of herself and the Women's Civic Center group when she put her ignorance on record and got the women to vote for it.

OCEAN BEACH POLICE STATION

It is remarkable that Benbough's new Chief of Police follows the old track of "Uncle Pete" in sabotaging surveillance of juveniles, wherever possible, to the advantage of the liquor crowd. His latest brainstorm is to abolish the Ocean Beach Police station on the grounds that police calls for Ocean Beach could be handled more expediently directly at Central Police station. If that is true of Ocean Beach, it is equally true of La Jolla and East San Diego. Why, then, not abolish those stations also?

The people of Ocean Beach do not like the idea of having to rely upon Central station for protection. They signed a petition against it and presented it to the city council for action. A cop on his beat in Ocean Beach who knows the neighborhood, the kids, the habits of the natives and haunts of the crowd, is more valuable in the prevention of crime and juvenile delinquency than policing the beach area by remote control.

UNION EDITOR GOES HAYWIRE

A report from Del Rio, Texas, about three members of the Jehovah Witnesses denomination who equally despise the POPE & HITLER as tyrants, appeared in the daily press last Thursday. Anybody familiar with Jehovah Witnessess propaganda could see immediately what it was all about. But because their literature bore a **carricature of the SWASTIKA** just as it bears carricatures of the Pope, his tiara and crooked staff, the ignorant populace mistook the three for Nazis.

If Edward T. Austin, the editor of THE SAN DIEGO UNION, had any brains at all and if he were not so all-fired filled with hatred of Germany that it dulls his reason, he would have realized what it was all about, as this writer did at one glance; but instead, look what hysterical spy propaganda Austin put out in the UNION of May 24:

> "Let none of us become so imbued with the conviction that we have the best government in the world as to close our eyes to the realization that there are thousands among us who do not share that view. A minor incident in Del Rio, Tex., this week may furnish a clue to one of the dangers which we face. There Nazi agents who were working openly for the German cause, were forced to leave town by indignant citizens. Before leaving, one of the **agents** told the crowd that "if we have to go, there will be hundreds to take our place. . . . They are in every county in every state in the Union". Allowing for a typical Nazi boast, there is much to indicate that it is too nearly true for comfort."

BUSINESS TAX ON SAN DIEGO

Councilman Simpson proposes to levy a business tax on every business in San Diego to **"reduce the property tax rate".** That means that instead of paying the tax directly, the people of San Diego are to be penalized twice. Every indirect tax pyramids automatically. The businessmen of San Diego are going to charge the tax to their consumers and the consumers who imagined that they saved on the property tax, pay more money when the price of doing business is raised. The idea of collecting a tax on business is that the businessmen are not very numerous and can be easily silenced, but that consumers are many and they will be told that they save money in the property tax. The fool suckers don't realize that the businessmen must charge that tax to them in the price of the things they buy **with accrued interest.**

Such rabble rousers and unscrupulous agitators like Simpson who are personally too ignorant of economics to realize that you cannot get taxes out of the people without the masses paying for it, are the curse of American industry and general prosperity.

All taxes on business hold back business and the small businessman is being penalized to death already.

CHRISTIANS ARE MYSTICS

Dear de Aryan:

I am amused at Roosevelt and his admonishments that we must live the true Christian way —and then contradicting himself by saying "no mystical power will protect the U. S. from invasion." He is one of the regulars of the church who believes not what they issue out of their own mouth. We need a Franklyn or Lincoln but the people do not deserve such honest men anymore and that is why they have these windbags as leaders.

WILLKIE PROVES JEWISH ORIGIN OF NEW DEAL

It is most revealing how the truth will creep out of hiding in the most unexpected places. Now comes Wendell Willkie, whom nobody would even remotely accuse of being an antisemite, but who noticed the semitic trend and fallacious reasoning of the New Deal and brought it into the open without even realizing how he hit the bullseye.

The Jewish mind is a composite of Negro, Mongol and Aryan inheritance. The Jew intermarried, or else cohabited, with Negroes and Mongols as well as any other colored race, since they are basically an immoral tribe. The resultant bastard offspring got the ambition to rule, from the ARYAN who is destined to be Lord of creation, but the Jew lacks the concommittant qualities, talents and ingenuity of the pure bred Aryan, which enables the white man to reach divine heights and muster an ingenuity, not yet demonstrated previously on terra firma, to achieve superior goals. So the Jew imagines that by having a lot of money he will buy results. Thus he aspires to become the ruler of white nations by ruling their financial system to his own advantage. That is why the Jews worship Mammon and the Golden Calf in place of God, Uprighteness—and display none of the characteristics of the inventor and engineer, but the wily, scheming traits of the exploiter.

Kindly read now what Willkie says about Roosevelt's administration and you will realize that Roosevelt is a Jew by inheritance and by their fruits you shall know them. That is why Baruch, Morgenthau, Franfurter and Cohen are the big shots in his administration and now he wants La Guardia for secretary of War.

ADMINISTRATION'S MONEY THEORY HIT BY WILLKIE

NEW YORK,— Wendell L. Willkie, utilities executive and potential candidate for the Republican presidential nomination, declared the Roosevelt administration was operating "upon the cynical theory that you can buy anything with money."

"This government has sought to buy employment with money—the so-called pump priming theory," he added in an address at a "Hoosier box supper," held in his honor by present and former residents of Indiana, his native state.

"It has sought to buy freedom with money—the so-called 'relief' program, which barely keeps Americans from starvation. It has bought political power with money. Now it thinks it can buy defense with money."

Some things, he continued, "have no price . . . cannot be bought . . .can be created only by sweat, by courage and by belief in the principles of freedom. And until we have in Washington a government that recognizes that fundamental political fact, we shall not have prosperity in this country—no, we shall not even have defense."

OLIVES
GIFFORD'S California Olives

PATRIOTS!! ??

The San Diego Union carried the following "joke" by **Uncle Will:**

> "When this republic was young the champions o' liberty were called patriots. But now that we've grown big, and strong, and industrial, the man who speaks o' his liberties is called a radical."

And now it's getting worse even. When Col. Lindbergh warned us against foolish meddling in European affairs and frankly stated that a "minority" which controls the avenues of propaganda, the press, Hollywood, the radio, alone is vociferously asking for war on Hitler, he, too, is being called a **traitor** by the warmongers.

Today, every Christian is called a traitor. This is America, my friends!

We have better clean out that "minority" that they may not hold the key offices in our government and dragoon us into war.

Communism was carefully planned and nurtured by the international Jews to take hold of Russia. Justice Brandeis intervened with President Wilson to get Bronstein-Trotsky out of jail in Nova Scotia where the English had interned him, and with a million dollars from international Jews, Bronstein met with the other conspirators in Sweden and thence kicked Kerensky out, signed the treaty of Brest-Litvosk with the Germans. That enabled the Germans to take their troops away from the Russian frontier and send them to France to **kill more American doughboys.**

All paid for with Jewish money and the help of Justice Brandeis. Oh, yes, the Jews are patriots and the rest of us are "traitors", like Jesus was branded a traitor when He refused to lead the Galileans to war against Rome.

whatever Fulton Lewis, Jr. could offer. Never before did the American public hear the inside story of the British success as empire builders presented from an entirely new angle which I have elaborated in my script. David, our youngster, is asking questions of his Dad how it comes that Hitler made such a phenomenal success in such a short period that enabled him without money to build up the German nation to such a formidable war machine. The replies his Dad gives are classic and reveal the secret of both Hitler's present and Britain's previous success as rulers of one fifth of the globe's surface. Both used the same principle.

Tune in Thursday

This program will be presented next Thursday night at the usual hour or 8:30, if I don't have to surrender graciously again to someone else who should surrender to me, if turnabout means fair play. In any case, this program should be put on an international network, it reveals such new angles and is couched in a language that even David, a high school boy, can understand and appreciate. All high school children should hear it, they are the ones who will pay for this war, eventually.

Lindbergh Exposes Jewish War Propaganda

WASHINGTON,—America need not fear invasion, in the opinion of Col. Charles A. Lindbergh, "unless the American people bring it on through their own quarreling and meddling with affairs abroad."

Declaring that "a definite policy of defense" is the first necessity, the famous aviator called in a radio broadcast for an end to "hysterical chatter of calamity and invasion."

"We are in danger of war today," he said, "not because European people have attempted to interfere with the internal affairs of America, but because American people have attempted to interfere with the internal affairs of Europe."

Lindbergh, an army air corps reserve officer, asserted that America needs "a greater air force, a greater army and a greater navy," but added:

"Until we have decided upon a definite policy of defense, the mere construction of large numbers of aircraft will not be adequate for our national safety."

"Clear Policy" Advocated

"Let us form with our neighboring nations a clear and definite policy of American defense," he proposed.

(Early in 1939 Lindbergh gave government officials a confidential report on Germany's air strength and a member of the organization of the national advisory committee on aeronautics described his report as "very informative". Previously, he had been criticized by Secy. Ickes and others for accepting a German medal, and has been called "a stupid liar" by Russian spokesmen after he compared Russia's air power adversely with that of Germany.

(Sen. Brown (D-Mich) and others, also sections of the British press, were particularly critical of a radio speech in the fall of 1939 in which Lindbergh virtually demanded that Canada cut her link with the British empire).

Applauded by Onlookers

Lindbergh spoke on the eve of the 13th anniversary of his famous solo flight from New York to Paris. A small group of onlookers applauded him as he left after his speech.

Not Afraid of Germans

Declaring "that the world is facing a new era is beyond question," he said, "our mission is to make it a better era."

"But regardless of which side wins this war," he said, "there is no reason, aside from our own actions, to prevent a continuation of peaceful relationships between America and the countries of Europe. If we desire peace, we need only stop asking for war. No one wishes to attack us, and no one is in a position to do so."

Jews Want War

"The only reason that we are in danger of becoming involved in this war," he said, "is because there are powerful elements in America who desire us to take part.

"They represent a small minority of the American people, but they control much of the machinery of influence and propaganda."

OUR BOYS

Young, unexperienced in the ways of political intrigues and Foreign Investment Propaganda, our boys, many of them, are just as eager to throw their lives away on Flander's Fields as were their fathers. Lindbergh, a man who personally investigated European Air Forces and Armies before the present war, says America should keep it's nose out of Europe's Wars. America's Adults MUST save American Youth—who else can save them?

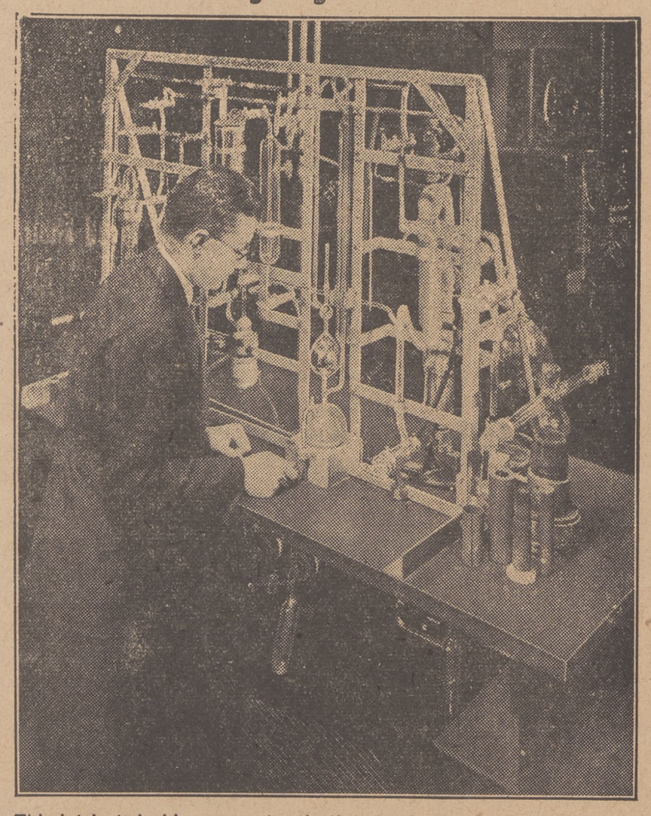
Chemical Tests Show Metals Absorb Gases Affecting Magnetic Qualities



This intricate-looking apparatus, in the chemical research laboratory of the Bell Telephone Laboratories, can reveal how much and what kind of gases have been absorbed from the atmosphere by various kinds of metals. For, despite their seeming solidity, metals can absorb gas, and gas can affect the magnetic properties of metal, which are important in the manufacture and operation of efficient telephone equipment.

Assemblyman Kellams Wants US To War on Germany for Sister's Sake

Calif. Legislature Votes Down Peace a|c Richie

May 25, 1940.

Dr. Jesse R. Kellams,
Assemblyman from Santa Monica,
Sacramento, California.

Sir:

As an American citizen you have the right, as do I, to express your opinion, but as a public official you should be more discrete with your utterances on our foreign policy. I am no friend of Paul Richie, and I dare you or anyone else to say I am not 100% American, but the inclosed attached clipping (reprinted from the Broom of last week below) expresses my views about England. If you think so much of that country why don't you, individually go over there and help them fight, or get your sister back in the U. S. where she perhaps belongs and keep your mouth shut at least while you are an assemblyman.

Disrespectfully,
ROY O. AKERS.

Son of an American Revolutionary Fore-father, and also son of a Union Civil War Veteran. (Volunteer).

LIBERTY

What Nation Forced Us To Fight Them For It—?

Remember Amshel Myer, The Jewish usurer, who was knighted "Baron de Rothschild" for helping the English King against the American colonists by inducing the Landgrave of Hessen to send over an army of mercenaries to fight us, for which Amshel received $2,000,000 in gold as the Landgrave's banker. That is how these world wars are engineered.

Editor's Note: If Richie pulls for Russia and Kellams fights for England, we had better start looking out for America first. Kellam is as much subversive of American interests as is any Communist whose allegiance is to an alien government.

A resolution to keep the U. S. neutral was voted down in the California legislature because Assemblyman Paul Richie sponsored it.

Labor's-Partisan League, which once fought hammer and tongs for the New Deal and Mr. Roosevelt, now sallies forth to battle under the slogan: "A vote for Roosevelt is a vote for war!"

WHAT IF HITLER GETS THE BRITISH NAVY ?

Joseph Alsop and Robert Kintner published the following paragraphs in their column, The Capital Parade:

WASHINGTON,—The thought of the British fleet in German hands is the worst nightmare of every man in the American state department and defense services. They hope it is only a nightmare. But if the worst happens, they admit the possibility that the British naval commanders may be induced to surrender their ships as the ransom of the people of the British isles from the terrible air war.

If the possibility becomes a reality, what may happen? In the first place, American naval experts believe that it will take the Germans at least 18 months to man the British ships and train the new crews to operate them. Thus this country will have a year and a half in which to prepare for the worst.

The time is very short. Its shortness makes all the clearer the desperate importance of immediate rearmament on a scale far greater and more complete than was provided by the President's defense requests to congress. With adequate rearmament, we can at least defend our own and the Canadian borders, although we shall hardly be able to prevent Germany and her allies from seizing vastly important strategic bases and occupying areas which we have always regarded as within our special sphere of influence.

Neutrality Would Protect Us

That is just what Col. Lindbergh pointed out. Our policy towards Germany is hostile, not neutral, in spite of all the lies the administration is putting out sanctimoniously when calling legislation "to keep us out of war" a Neutrality Act. If we were neutral, we would have nothing to fear from Germany.

It is an open secret that Alsop and Kintner are White House spokesmen. The above propaganda is calculated to inspire more fears to add more sums to "preparedness". Let it be understood that preparedness means huge metal industry profits. Examine who owns the lion's share of the metal industry and you will discover Jewish stockholders, international Jews who have their domicile not only in the U. S. A. but are nominally, Dutch, French, British, etc. The whole war originated with those international Jews to enhance the profits of their ore mines as well as their shares in the metal industry.

They were the ones who imposed the treaty of Versailles and refused to disarm the Allies as they disarmed Germany. The munition stockholders of France and England even subsidized Hitler's early moves to get hold of the German government because they **had to have an armed menace** to shoot at. They armed Hitler that they may be able to force even greater armaments upon France, England and **all the neutrals.** They have reaped billions in profits and Roosevelt's "preparedness" chant and the fears of Hitler are now the second phase of this Jewish conspiracy to spread hatred, drive one Gentile nation against another. Those Jews being the **fifth column** who have infiltrated into all governments except Hitler's, hope to profit from this nefarious fratricide and then establish **Zion's rule** upon the debris of civilization. And just notice how their scheme works here in America, too.

Wake up Christians! Wake up Patriots

Had the international Jews not dominated at Versailles, Germany would have received fair terms and there would have been no Hitler, no rearmament, no fear of an invasion of the U. S. A.. It is the Jews who run our government who are afraid that Hitler will come and pin their ears back. If we clean out this **fifth column** in America there will be no need of Hitler doing the housecleaning for us as he is doing it in all the European governments where the Jews succeeded to harrass him till he had to step in and slap them down.

The Proof of the Pudding

Events demonstrate that Christ is right and the Jews are wrong. Fair play makes friends. Exploitation, treachery, brutal suppression of human rights of nations and individuals sows the seeds of death and destruction. More armament and more burdens upon the peoples profits only the unscrupulous international Jews, it ruins all the nations involved. Millions of Germans, too, are killed in this European carnage. When Germans are left to develop their better nature, they are the leaders of culture, thought and civilization. When Germans are forced to fight to live, they do it most thoroughly as we see it again in Europe.

Let's follow Christ and sow the seeds of peace.

UNIONS RUINED PUGET SOUND

Dear Mr de Aryan:

Enclosed find $1.30 in currency for which please extend my subscription to the good Broom for another six months. Your paper is the most fearless and daring I've seen for a long time. Expose the labor racketeers like Dave Beck, etc. The labor union racketeers have become so strong now that that the so called most 'reactionary' newspapers are afraid to print anything against them and the more liberal papers won't.

Puget Sound was the last frontier of the small passenger steam boats until 4 or 5 years ago when the unions came in and pulled one strike after another until all the small independent operators finally went bankrupt leaving only one big ferry line (Black Ball line) in operation. Those steamers pulled through the worst depression and went broke on account of the unions. The boat wreckers have been busy ever since dismantling a score or more of these boats for munition for the Japs and the 100 or more men who worked on the boats went on W. P. A. at lower wages than they got on the boats. Hundreds of summer homes owned by Seattle business men were abandoned because the boats quit running to the summer colonies.

More power to you in exposing the labor union racket!

Very truly yours, FRANK OLAFSON,
Seattle, Washington.

Yiddische Nachrichten

By Chas. B. Hudson

OMAHA, Nebr.,—Statesman Hon. Jacob Thorkelson, starting p. 8626 (Congr. Record 5-6-40), inserts a speech and documentation that every American should read. He proves how the **Non-Sectarian Anti-Nazi League to Champion Human Rights** (organized 1933 by Jew Samuel Untermyer to combat Hitlerism by boycott of German goods, etc.) not only used names of many prominent Gentiles without their sanction, but operates a spy system in the U. S. A. (just as SATEVEPOST articles prove same "control" did 25 years ago).

Thorkelson says, among other equally vital things:" . . . The question may be asked, What right has any organization to maintain and operate an intelligence department to investigate the American people? What right has a purely Jewish organization to maintain an anti-defamation league (B'nai Brith), a bureau of investigation, and a secret service force to spy upon the American people and report their findings to the FBI or Justice Dept? This is an affront and an insult to the American people. It is humiliating, for in our acquiesence we admit cause, and can it be possible that the American people are criminals? We have a Justice Dept. and a Fed. Bureau of Investigation, and we pay both of these departments to protect us against crimes and criminals.

"Is not it a bit strange that both departments take orders form these Jews and protect the Communists instead of the American people who pay the expenses of the departments? Is it not a bit strange that our courts protect the Communists and prosecute patriotic American citizens? Is not it strange that excessive bail is set on a patriotic American when he is turned over to the Department of Justice by the Jewish intelligence, and that the guilty Jewish Communist is left entirely free as he waves the Bill of Rights and shouts, "Help, I am persecuted"? . . . . "

Thorkelson's charge: " . . . . It would be interesting to know how many times $250,000 they (N-S.A-N.Lg) have raised, to destroy patriotism. I have been informed that there is a fund of over $50,000,000 employed for this purpose, upon which no interest or income tax is paid, and no account given to the Fed. Govt. This is something that Congress may also investigate, for it is certain that the activities carried on by the internationalists costs money, and it is our business to find out the source of this finance . . . . After a spirited discussion, delegates at the closing session of the Reserve Officers Association Ladies clubs seventh annual convention went on record as "unalterably opposed to the Mothers of America organization and the organization known as "We Who Are About To Die" as contrary to the welfare and safety of American citizens."

Medics Offer 'Bargains' To Offset Syphilis Test Law Aversion

California Marriages Take Spectacular Tumble

Repeal of the "gin marriage" (three-day notice) law and inducements for California weddings are advocated by Dr. W. M. Dickie, state health director, to check the declining marriage rate.

While marriages in the state declined 36 percent in the first six months that the law requiring pre-marital examination was in effect, marriages decreased 36.69 percent in San Diego county and 31.71 in Imperial County.

"The gin marriage law," he said, "serves no purpose now that the state has the much more socially valuable law requiring blood tests and examinations for syphilis before marriage."

California jewelers, florists and hotels could do much to check the exodus to Arizona and Nevada for marriages if "they would offer special inducements to couples marrying" in the state, Dr. Dickie said.

Subterranean Kingdom

Santa Fe Railway Photo

This towering mass of limestone is the Giant Dome, world's largest stalagmite, which has been growing an inch each century and is reputed to be as old as the earth. The Dome, which is 62 feet high, is located in the Big Room at Carlsbad Caverns. The Room is nearly a mile long, 625 feet wide and has a ceiling 350 feet high.

Carlsbad Caverns National Park, situated in the foothills of the Guadalupe mountains near Carlsbad, New Mexico, is one of the most amazingly beautiful natural marvels in America. The Caverns, which became a National Park in 1930, were formed in the process of erosion by the gradual solution of underlying beds of limestone, gypsum and rock salt. They are filled with limestone formations of an infinite variety of shapes and sizes, ranging from icicle-like pendant cones of carbonate of lime, called stalactites, to the corresponding mushroom-like deposits of calcareous matter called stalagmites, found on the floors of the caves.

Jim White, a young cowboy, was the first white man to explore the caverns which he found in 1901, when he investigated the source of a dark moving column which appeared to come from the earth. The column proved to be an outrushing swarm of bats. Today the bats, numbering 3,000,000, provide a spectacle of their own as they leave the caves at sunset for a night's foray, to return at dawn and disappear into a portion of the Caverns not open to visitors.

The growing popularity of the Caverns has resulted in the establishment of a new service which enables Santa Fe travelers to make a minimum stop of one day to explore this underground Fairyland which Nature has been carving for 60 million years.

A leisurely tour of five hours permits inspection of the great chambers and time to enjoy a delightful luncheon at the halfway mark deep in the Caves. The trail leads through the Green Lake room, King's Palace, Queen's Chamber, Papoose's Chamber, and finally the Big Room where is found the Giant Dome, which bears a striking resemblance to the Leaning Tower of Pisa. Another majestic formation is the Rock of Ages where visitors halt for a brief talk, followed generally by the singing of the "Rock of Ages."

BADLY WARPED

Mission Beach Amusement Center Opens May 30

The city's modernized Mission Beach Amusement Center will have it's gala opening next Thursday, Decoration Day. Wayne W. Dailard, nationally-known showman, and managing director of San Diego's 1936 Exposition, is director of the amusement center. He is introducing to the American public for the first time his Theater Ballroom Idea, a novel presentation which will combine popular dancing, with spectacular floor and stage shows.

A feature of this presentation will be the new Peristyle stage, which will sweep from the mezzanine of the Mission Beach ballroom to join the orchestra stage. Dancing down this stage on the opening night Thursday, will be the famous Carlos Romero's Roxyettes, recently one of the hits of Broadway; the majorettes, Audrey Allen, the Normans from Earl Carroll's revue, Dick Ware, and other feature attractions.

The Esquires and their famous swing band, with pretty Betty Joyce have been booked for the opening night.

There will be a nightly theater ballroom show Thursday, Friday and Saturday at Mission Beach, and on Sunday night, the 3000 members of the city and county employees association will have their annual outing.

Along the midway, Dailard is introducing some of the latest concessions.

A featured concession will be miniature automobile racing on the new 1-16th of a mile speedway which is now being rushed to completion at Mission Beach. These tiny cars race over this oval at 75 miles an hour. This is the latest fad of the stars in Hollywood, and is sweeping the nation, Dailard said.

Other outstanding attractions will include a new milk bar, a Miss America Show, the Midget Show, a streamlined merry-go-round; a skeet shoot, a ferris wheel, the new Lindy Loop, Tilt-A-Whirl, and the modernized roller coaster.

Spectacular illumination effects also are being installed at the amusement center, making it the outstanding fun area on the Pacific Coast.

During the rest of the season, Dailard will bring some of America's top-name bands including Ben Bernie, Artie Shaw, Bob Crosby, Kay Keyser, Phil Harris, Paul Whiteman, John Scott Trotter and Bing Crosby, and others.

Arthritis

IT'S CAUSE, PREVENTION AND CURE

The doctors, as they took their fees,
Said: "There is no cure for this disease".

If arthritis—or the symptoms generally connected with the name of the disease generally known as arthritis—is the result of uric acid poisoning, it follows, that arthritis can be cured only by removing this cause and eliminating it from the system. The first step toward this end is to stop introducing uric acid into our daily food and drink, in other words stop using foods that contain uric acid. These foods are: meat in all its forms and names, starting from pork chops down to oysters and bouillon, which is practically the same as urin of the animal from which body the so-called bouillon is made. Other foods containing uric acid or its equivalent are: yolk of eggs, peas, beans, lentils, asparagus, mushrooms, oatmeal, coffee, tea and chocolate. If you want to free your body of uric acid avoid these foods as you would any poison bought at a drug store.

Our next question is how to eliminate the excess uric acid from your system. Many people have the wrong idea that acids can be washed out or flushed by using a lot of water. Although a sufficient amount of water it necessary to carry on the normal functions and elimnation of the body, water drinking alone can not rid the system from uric acid. In fact too much water does more harm than good: it dilutes the juices of the stomach—especially drinking during the meals—and hinders the digestion. Then it raises the blood pressure by increasing the volume of blood and so makes more work for the heart. And because people with arthritis have their kidneys all clogged up with uric acid, these important organs can not let the excess water out from the system and the water is retained in the body and dropsical conditions may result. So this water drinking fad does more harm than good. Uric acid cannot be washed out from the body—it has to first be neutralized by alkalies and then eliminated. In order to neutralize you do not have to go to your drug store for alkalizers. Those who tell you to alkalize by chemical products are just lying and trying to make money out of your misery and increase your sufferings. You get all the alkalizers right at your fruit market. Citrus fruits are best to neutralize acids, limes, lemons, grapefruits and oranges are powerful blood builders and cleansers of the body. But you have to be careful how you use them. If used in excess, they harm your stomach and interfere with its functions, cause anemia and even diabetes, especially in children. Many vegetarians have made the mistake of alkalizing too much and have thrown their whole system out of balance and ruined their health. About two lemons a week—a few drops to a glass of water twice a day—or two to three oranges a day or one grapefruit is all you need to supply your body with necessary alkalies to fight excess acidity. And of course other fruits have also alkalizing properties, as have berries and vegetables.

There is some confusion in the minds of laymen as to how citrus fruits can be called alkalizers as they are acid in their reaction. This is easily explained. Citrus fruits have an alkaline effect in our body because the alkalies are released when they are acted upon in our stomach. So that citrus fruits are alkaline in the action—not acid, as is erroniously thought.

When fruit alkalines are taken in between meals, they get directly into the blood stream, get in touch with acids and in all tissues and joints and neutralize uric acid, which is carried away. Day by day the supply of uric acid is decreased and gradually health restored. But all this is not always as pleasant as it sounds here because of the possible healing crises which may occur.

When this general house cleaning is being carried out, some unpleasant symptoms may appear: the joints may swell, old aches and pains may come back, slight fever may develop with depression of body and mind. All this because old deposits of poisons have been stirred up and the blood stream is now saturated with waste products of auto intoxication. Unless the patient is willing to go through with this house cleaning and face the results of his wrong living by patience and hope, he better not try it at all. Besides all the medicines and dope he probably has been taking into his system during many years may now try to find an outlet and make him feel like he was getting worse instead of better. All this suffering is the result of ignorance and disregard of nature's laws. Nature never forgets or forgives anything. Sad isn't it?

In our next article we will give you some advice on hydrotherapy and its use in curing arthritis.

Yours for health and will power.

KATHERINE LARSON.

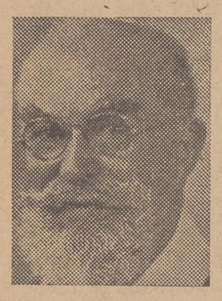
HEALTH-GERMS

By George Starr White, M. D.

PNEUMONIA

These paid reporters have no respect for the "docs" they play up in the public press. One of them recently told me he would "play" me up for a hundred a month and make the "other docs" look like "moth-eaten scarecrows".



Dr. Geo. Starr White

In these reports it is omitted that a large percentage of the pneumonia victims did NOT have pneumonia, but after the new-style "medication", they were mamed; blind; or worse!

Blitzkrieg on pneumonia told by docs

CORONADO,—Dr. Roy E. Thomas of Los Angeles said that combined use of serum and a derivative of the "wonder drug" sulfanilamide had enabled medical science to reduce materially the mortality rate of pneumonia.

Addressing the 69th annual convention of the California Medical association, Dr. Thomas told physicians that in larger hospitals during the past two years pneumonia mortality had been halved through use of serum. Since the discovery of sulfapyridine, he said, fatalities again had been cut in two.

The physician said another discovery, gramicidin, promised "further hope for pneumonia victims".

Where both serum and sulfapyridine, the sulfanilamide derivative, are used, there has been a marked decrease in mortality when compared with the use of either by itself.

The physicians devoted a large part of the session to discussions of new methods of treating pneumonia.

Liars Call it "Pneumonia"

To make the percentage to suit "new medication" EVERYTHING like a cold, or fear-fever, is called "pneumonia", for that scares the patient and the doctor gets credit of having saved the victim from the "terrible disease".

I have seen a great number of pneumonia cases in New York City hospitals. I would not treat them as the other doctors would. I gave no food except fruit juices or WATER alone! All my cases recovered with no bad effects. THEN, my confreres would gibe me by saying my cases were wrongly diagnosed!

Food to a pneumonia case is as deadly as the serums and coal-tar dyes they are now giving "rite or rong". The doctors tell me to my face that there are too many alive now anyway and that I should not feel so interested in cheating the UNDERTAKER!

Every pneumonia case should remain in bed for at least a week of seven days after all fever has subsided.

A pneumonia case should not eat a bit of solid food, but should keep bowels well open and take only distild water and fruit juices strained and diluted with distild water.

Chlorinated or aluminated domestic water is dangerous to one with a fever. Distild water is the only safe drink along with fruit juices.

PNEUMONIA IS NOT DANGEROUS, BUT THE MIS-TREATMENT OF SAME IS VERY DANGEROUS!

"MANKING UNITED"

Dear Mr. de Aryan:

I am very anxious to know what you think and know about the "Mankind United" movement; an early answer would be very gratefully appreciated.

Sincerely, I. P., Los Angeles.

* * * *

Dear Mrs. P. . . . . .

Your letter at hand and thanks for the dollar bill. Have mailed out the copies of THE BROOM to the addresses given.

To your inquiry regarding "Mankind United" I cannot reply with personal details as to who the people are that promote it. I do not know them and am not interested to make their acquaintance. We have too many crackpots already.

The general information I am able to give you is along the lines of the general description of the "movement". It is another one of those abortive efforts like the Kellog's Peace Pact to outlaw war, going to Europe to fight for democracy and eliminating poverty by printing new kinds of money. The intelligence of these people is at fault. In Los Angeles you had the "Utopians" who caught the fancy of the moronic minds as well as the Ham & Eggers all over California.

Can you people not learn to stand alone and mind your own business without running around "investigating" all the idiocies that are let loose upon benighted souls!

Keep away from people who expect to get something for nothing, this includes M. E. R., too.

Common sense, hard work and responsibility of intelligence in applying what we learn to daily practice, is the only way to LIBERTY, peace and prosperity.

Sincerely Kosti.

ONLY GOD WITH NATURE AMONG THE PINES

Not high above these man-made canyons;
Not steel on steel and stone on stone,
Where clouds of dust and fogs of smoke
Leave dirt and perfume each sheltered home.

Not over the noise of yelling newsies,
Where penetrates the horn, the brake, and other noise.
Not where each day continues with night;
But among the Heaven-bent, with Nature's poise;
Of streams and lakes who throw on high,
Their mist to cleanse the blue with watery drops
We feel our inner self become light and clean.

But this cure ends when God with Nature stops,
When we return to this noise, this stone, this steel.

The Twenty-Third

Birthday of Jesus the Christ

The Twenty-third to a secientist is as significant as the Glorious Fourth. Speaking of the latter, we know at once that we mean July as the month. When we say the Twenty-fifth, we know we mean Christmas in the month of December. The Twenty-third is in May—the day of the nativity of the man, Jesus who revealed in Himself the Christ principle. True, the Twenty-fifth of December is the birthday of the Universal Christ, which means that one and all of the Saints of God on earth celebarte the Birthday of the Aryan race. But the individual birthday of Jesus fixes the Twenty-third of May. This brings Jesus on the cusp—leaving Taurus and entering Gemini—the Twins or Twin nature. Centuries after, there arose quite a controversy over the exact dates, and many held that in Him were the two Natures or Gemini. The characteristics of the Blessed Saviour strongly lean to Gemini, although he shows the inherited tendencies of Taurus. It is the great determination on the one hand and the great desire to compromise on the other hand that made it possible for Jesus to stand out as the Christ—the New Order of Things. Through the struggle proved beyond human endurance; though the sacrifice is beyond all conception and immeasurable in value, nevertheless the victory attained is evident.

The Twenty-third will continue to live in the hearts and minds of all the Saints of God and all the minds appreciating the scientific applications revealed by the Blessed Saviour. Whether the mind has expanded enough to grasp the great measures of Life and Eternity, or whether we are still occupied in the one or the other realm of thought matters not, for everything comes to us in accordance to time and season. According to our understanding we have knowledge of things.

The Blessed Saviour came at a time when the arm-length of Spring stretches to grasp the hand of high Summer, with its abundance of Blessings. Hand meets hand in fellowship—recognizing the Twin principle in everything. The Savior thus comes in all His youth to present the full manhood of humankind. Some have missed the handclasp; some have strayed away; others in looking backward saw naught but the Bull of Zarathushtra; still, doubt and uncertainty only too often miss the mark and empty-handed we have to climb fences and are caught in the thicket of bramble-bushes with their ever-entangling dogmas and beliefs. The Saviour came as an encouragement. He came not to a class or to favourites. He came to those of His kind and kin who know their origin, their purpose in life and their destiny. He came to remind us of our full worth and value. He came that we may no longer err. He came to announce the greatest tidings ever voiced. **"One single soul is worth more than all the treasures of the earth!"** This declaration is sufficient to encourage the faintest heart and lift it into realms of continued activity.—British Mazdaznan Magazine.

BROOM, 'Verboten' in Canada

(Continued from Page One)

you must be, indeed in a bad way. From our point of view the truth prevails and people who want to read our paper are going to read it, in Canada and anywhere else. Remember what happened in the U. S. A. during the era of prohibition.

What do you expect me to do? Stop printing the BROOM so that Americans who have friends in Canada might not buy copies and send them to read facts which your censors do not want to let them read in the Canadian or the controlled press of America? While only about two dozens papers were mailed directly from this office to Canada per week, we understand that since we published that poster: WAKE UP! The British are coming! . . . They want us to fight their battles again!—several hundred copies of that issue was mailed by Americans into Canada and have been passed from hand to hand. How do you expect me to stop that?

I am enclosing a subscription blank for THE BROOM. We charge $3.25 for Canada. I suppose you can instruct the Canadian Post Office to deliver your copy. I am sure it will be cheaper for His Majesty's government censor to read the copy first hand, post haste, in order to know what new deviltries THE BROOM is pulling off to wean the Canadians from His Majesty and win them over to annexing to the U. S. A. In any case it will be much cheaper for His Majesty's government to subscribe directly than to send another lady spy to invite me to her apartment, pretend to being a vegetarian, know all about Mazdaznan and ask me to tell her more about myself while she indulges in a petting spree. Kindly tell the next lady spy that Mazdaznan's do not kiss on the mouth, but kiss like the Frenchmen kiss each other, on the cheek. It was a dead give away and when I turned her name over to our Army Intelligence the young lady flew the coop.

Please bear in mind that we Americans are not all suckers. Some of us came over here because they know you British inside out and have no earthly use for His Majesty and his government. I told His Majesty's lady spy who tried to buy space to print propaganda in THE BROOM that she was very badly informed when she expected us to sell America short. We want none of your wars. Fight them yourself!

We have a constitution which makes us all sovereigns. That is what appeals to such a large proportion of Canadians who realize how much better off they would be to annex to us. His Majesty was not able to defend the Czechs, save the Poles, Finns, Jewish-Communistic Norway government, protect the Dutch, Belgians, French, Luxembourg or for that matter its own hide. Canada is protected by the U. S. A. Monroe doctrine. Why, then, pay taxes to His impotent Majesty and not become sovereigns in their own right as American citizens?

Sir: The more you proscribe THE BROOM, the better I like it: Every reader of the BROOM who has friends in Canada will clip out this letter, enclose it in a sealed envelope and mail it to his Canadian friends to read. Mails are not censored as yet from the U. S. A. and you need not look for the San Diego postmark.

The truth is free and even Canadians have a right to know why His Majesty's government is so jittery that it cannot stand the light of day.

Expecting your subscription by return mail,
I am sincerely yours,
C. LEON de ARYAN.

"We print the truth"

P. S. As soon as Canadians will realize that in the previous world war as well as at present in Norway, Colonial troops are sent to take the brunt of punishment while the English troops are employed in less ardous and more protected activities, more Canadians will ask themselves the question why should they shed their life blood for the profit of the English Lords. That is how the U. S. A. was born and there is no reason why Canadians should not enjoy the same self-government. You can rest assured: THE YANKS ARE NOT COMING! Col. Lindbergh called the play in Europe and he has been proven right by subsequent events and Col. Lindbergh is right concerning America and Canada as well. As soon as you annex to us I shall be glad to thank you personally for boosting the circulation of THE BROOM in Canada by proscribing it.

Encl. C. L. deA.

Wake Up !
THE BRITISH ARE COMING !
All patriots rise to a defense of America and turn them back!
THEY WANT US TO FIGHT THEIR BATTLES AGAIN !

GOD ABSENT

In Cherokee county, N. C., a woman left part of her estate by will to God. When the Court enquired if all beneficiaries had filed claim the Sheriff had to announce that after diligent search he failed to find God in Cherokee County.

Is that why FDR figures he need not keep his oath of office?

payments to the union, if they wanted to keep their jobs. This violates the California Labor Code Section 921 and Section 923 which declare that as a matter of public policy no employer must coerce employees in the choice of their labor affiliation or representation.

EMPLOYEES FORM OWN ORGANIZATION

The warehousemen at Western States and Safeway formed their own organization, hired Attorney Edgar B. Hervey to advise them and he informed them that under the law they could form their own group and did not have to join the AFL. But the Safeway people were in a hell of a fix. If they recognized the independent group Dave Beck would swoop down on them on the Oakland stores and tie them up. So they advised the San Diego employees to forget their own organization and join up with Local 542, which they did. Jerry McGrath of 1735 Klauber St., Encanto, was appointed shop stewart and the employees paid their dues and initiation fees.

But when it came to deliver, that means to get a raise in wages as the union had promised them, the boys discovered that union promises mean as much as a Democratic platform pledge under FDR. Dave Beck came down to the Labor Temple here and kept on promising them a $10 per month raise, but he denied that a contract existed between the union and Western States Grocery Co. He pretended that it was not the Western States who had forced the boys to join, but that Local 542 had acted independently and there was no contract between this local and the Safeway Stores. Of course there is no such contract. The contract is between Dave Beck and the head of the company.

Jerry McGrath learned a good deal about union "democracy". He insisted that the men get some benefits for the money they were paying in, but instead new strike assessements were slapped on them in addition to dues. Whenever McGrath stood up for their rights, he was told to come on outside and fight it out. So finally the boys decided not to pay anymore dues.

About that time Western States was being discontinued. Safeway Stores took over the warehouse, it was decided to drop the men who were in arrears to the union. McGrath and others lost their jobs. They received two weeks pay additional when dismissed. The discontinuance of Western States, gave the Safeway company an opportunity to weed out the "undesirables" from the standpoint of Dave Beck's contract.

Union Dictatorship

Here are some examples how unions are run "democratically":

At one of the meetings in the Labor Temple a member was found to have employed a non-union contractor to build his new home. Jack Poteet, business manager of the union, suggested a fine of $200. Jerry McGrath protested, demanding that the member be given a chance to explain first. He explained that he had not realized the contractor was not union, because in discussing details the contractor had said that "according to union rules" he won't work Saturdays. So the member took it for granted he was a union contractor and signed a "key & lock" contract. Some time later he found out the contractor was open shop, but the water tight contract was there and he could not change contractors. McGrath, then moved that no fine be levied. It carried; when Poteet arose and protested that the man **had to be fined anyway!!** Lester Dayton, secretary of the local, then made a motion to fine him $100. Poteet **ordered the members to vote for it** and they obeyed his order.

Another example: Cudahy drivers had been ordered out on strike. They struck and lost wages. Poteet negotiated with Cudahy's and finally returned with a contract which the drivers claimed was worse than conditions before they went on strike. They refused to accept the contract. Poteet ordered them back to work, or else. They went to work. Poteet said he could not do better by them. They wanted to know why in hell he had ordered them to strike in the first place, unless he was in cahoots with the company to break the better conditions they were working under previously to the strike.

McGrath complains that union members are told how to vote in political elections, or else. That they are told where they must buy their groceries, their clothes, their milk & bread and what petitions they must sign for political purposes. He wonders how much of a rakeoff the business agent gets for all that. Whenever McGrath stood up for orderly processes of voting and parliamentary procedure in union meetings he was invited outside by Al Froze or Lester Dayton to be beaten up. He says the Safeway Stores fired every representative of their employees who displeased the labor racketeers.

Another Safeway employee recalls how railroad companies worked in cahoots with labor racketeers to deprive old railroad employees of their earned pensions. He says that the strike in 1922 was pulled off for that purpose. Men who had been in the employ of the Railroads for 25, 26, 27 years and had only a little more to go to get their pension after 30 years of service were induced to join the Brotherhood against their better judgment. Then the union pulled the strike of 1922. All union men had to walk out. After the strike was over the companies accused the men of "disloyalty" and picked the young men who had been only 5 and 7 years in their employ and put them back to work while refusing to employ the older men who would soon have been eligible for pensions.

To File Charges With NLRB

Jerry McGrath says that he comes of good American stock and that he won't permit any organization, be it Safeway Stores or AFL, to get away with un-American tactics. He believes that both the California Labor Code and the Wagner Act must be enforced according to their stipulations which protect employees in the right to self-organization and designation of their own representatives without coercion from employers or outside unions. And so he says he is going to file charges against the Safeway Stores, Western States Grocery Co. and Dave Beck for violation of the Wagner Act.

SALESTAX ON NEWSPAPERS

Editor, The Broom:

In view of the recent court decision holding newspapers should pay retail sales tax, the decision being retroactive for a three year period, I feel it was not the intent or purpose of the Sales Tax Act to include the newspaper industry as it would be almost an impossibility to collect the tax from the consumer and this tax would place an undue burden on small local newspapers, the very backbone of our communities.

For your information, I feel that we can enact the necessary laws at the present special session to clarify the situation as we are limited to enact only such legislation as was placed in the Governor's proclamation for special session. We have already passed legislation exempting poultry & dairy products from sales tax &, therefore, I am of the opinion we will be able to legislate in your behalf, but the question is will the governor sign the Bill.

May I suggest that each of you wire the Governor stating your position and urging the necessity of this legislation?

Very sincerely yours,
JEANETTE E. DALEY.
Assemblyman 78th District.

Editor's Note: Why exempt the Newspapers and not exempt everybody? What's good for other industries should be good for the "makers" of public misery too!
